

## Tournament Security Procedure during the COVID-19 pandemic

### § 1 GENERAL PROVISIONS

1. This procedure applies to all persons present at the premises where the tournament takes place during the COVID-19 coronavirus epidemic.
2. The purpose of the procedure is to minimize the risks of COVID-19 infection.
3. The procedure defines the actions and preventive measures that will minimize the possibility of infection, but despite all the safety measures taken, it does not allow to completely eliminate the risk associated with coronavirus infection.
4. All persons participating in the tournament during the epidemic are required to complete and submit the declaration constituting Appendix 1, as well as update the information contained therein.
5. Only healthy people without any symptoms (cough, runny nose, abdominal pain, diarrhea, vomiting, conjunctivitis, skin inflammation, infectious disease) come to the facility and participate in the tournament.

### § 2 ORGANIZATIONAL RULES AND RULES OF HEALTH AND SAFETY

1. The tournament is held on the premises of the facility:
  1. max. 150 players (75 pairs) plus tournament staff, (minimum space per participant 4m<sup>2</sup>,
  - 2.with social distance at least 1.5 meters)
1. When dancing in pairs, there is no social distance of at least 1.5 meters
2. Participants staying in the facility during the tournament are not required to use helmets (masks), provided they keep a social distance of at least 1.5 meters
3. Items and equipment that cannot be cleaned or disinfected should be removed from the venue where the tournament takes place. Necessary accessories should be thoroughly cleaned or disinfected after each use.
4. The dance hall and changing rooms where the participants stay should be at least once ventilated between the blocks, and a constant, high-efficiency air flow in the facility's ventilation system should be ensured in the dance hall.
5. It is not possible to admit participants to the tournament and work by staff who have had contact with a person confirmed or suspected to be infected with COVID-19 in the last 14 days, as well as all people showing symptoms of respiratory tract infection.
6. In the facility, in a designated zone, the temperature is measured with a non-contact thermometer for both participants and tournament staff. Temperature above 37 degrees disqualifies the participant from the possibility of participating in the tournament. In the case of service, he is not allowed at the workplace. Additionally, the temperature is measured in the event of disturbing disease symptoms. A person delegated to measure the temperature of people entering the facility from the outside is equipped with at least a visor or mask and gloves.

### § 3 TAKING HYGIENE AND SANITARY ACTIVITIES

1. At the entrance to the facility, there is a hand disinfection zone - obligatory for adults and children over 6 years of age entering the facility.
2. In the building, one room is separated and marked for the ISOLATORY, equipped with a protective package (masks, gloves,) or a surface ensuring a distance of at least 2 meters from other people on each side.
3. The facility is equipped with alcohol-based hand and surface disinfectants (minimum 60%).

4. The staff of the venue is obligated to regularly disinfect frequently used usable areas and equipment used by participants. In particular, it is important to:

1. regularly clean common areas, including door and window handles, handrails, countertops, chair backs, door frames and wings, handles,
2. disinfect touch surfaces such as keyboard and mouse, light switches and toilets - at least 4 times a day,
3. in particular, such activities should be performed after the end of each dance block and before the start of the next one.
  1. In the kitchen and in the place designated for eating a meal, disinfectants are used for cleaning surfaces and equipment in gastronomy.

#### § 4 THE TOURNAMENT'S SERVICE OBLIGATIONS DURING THE COVID-19 PANDEMIC

1. People operating the tournament, inter alia:

1. explain to participants what rules apply in the facility during the epidemic,
2. systematically remind participants of the hygiene rules regarding: washing their hands before eating, after using from the toilet, covering the face while sneezing or coughing credibly, avoiding touching the eyes or mouth,
3. notify the medical staff about disturbing symptoms noticed by the participant,
